PROFESSIONAL SUMMARY

IT professional with 2 years of experience at Wipro Technologies across Machine Learning, Deep Learning, Data Science, Python and software development. Experienced in NLP, neural networks, classification, entity extraction and cloud-based environments.

TECHNICAL SKILLS

- Python, C
- NumPy, Pandas, Seaborn, Matplotlib, Cufflinks
- Machine Learning: KNN, Decision Tree, Linear & Logistic Regression, SVM, K-Means
- Deep Learning: Neural Networks, TensorFlow, Keras, RNN/LSTM
- NLP, NER, Regex
- SQL, Oracle, GCP
- Linux, Windows

PROFESSIONAL EXPERIENCE

Wipro Technologies | Data Science / Machine Learning | 2 years

- Developed Python programs and worked on Wipro Neural Intelligence Platform. Built NLP-based entity extraction, classification and NER components using Regex, NLU APIs, Scikit-learn, Keras and TensorFlow.

SELECTED PROJECTS

Wipro Neural Intelligence Platform — Worked on intent classification and automated responses; developed entity extraction for names, dates, places and contact numbers, plus a deep-learning NER model for roles, skills and organizations.

Diabetes Detection — Developed software to detect whether a person is suffering from diabetes; project received third prize.

EDUCATION

- B.Tech, Computer Science — Rayat and Bahra Institute of Engineering and Biotechnology (2016), 78.4%
- XII — Moti Ram Arya Sr. Secondary School (2012), 78.4%
- X — Valley Public School (2010), 9.4 CGPA

CERTIFICATIONS / ADDITIONAL

Python Training, Machine Learning, Data Science & Deep Learning — Udemy / Coursera
