

Ananya Sharma

Data Science & Machine Learning Professional

ananya.sharma@example.com | +91 90000 10001 | Bengaluru, India

PROFESSIONAL SUMMARY

Data Science professional with experience in Python, machine learning, NLP and text analytics. Skilled in building classification and predictive models, analyzing unstructured data, and creating dashboards and reports for business insights.

TECHNICAL SKILLS

Python, Pandas, NumPy, SciPy, Scikit-learn, SQL, JavaScript/jQuery, Machine Learning, NLP, Sentiment Analysis, Topic Modelling, PCA, Neural Networks, MySQL, SQL Server, Cassandra, HBase, Elasticsearch, Tableau, Matplotlib, Flask, Git, Docker

PROFESSIONAL EXPERIENCE

Ernst & Young LLP | Data Science Assurance Associate

- Developed analytics solutions for Technology Assisted Review, including predictive coding and topic modelling. Researched classification models, monitored model precision, and analyzed text data using Python, Scikit-learn, TF-IDF, Word2Vec, Doc2Vec, Naive Bayes, LDA, NMF and sentiment-analysis tools.

SELECTED PROJECTS

Text Analytics – Customer Reviews — Performed positive, negative and neutral sentiment analysis on customer feedback and created term-frequency visualizations and reporting dashboards.

Fraud & Review Analytics — Built classification and predictive-analysis components to identify red flags and fraud-related issues in large collections of text evidence.

EDUCATION

- Bachelor's Degree in Computer Science / Information Technology — Details as represented in the source dataset

ADDITIONAL INFORMATION

Core strengths: analytical problem solving, text analytics, predictive modelling and data visualization
